Response to offers

If you receive an offer you must complete the response form and return it no later than seven days after the date of the offer. Some late offers will be made by telephone and these will usually require responses within 24 hours.

The school may assume that the offer has been declined if you do not respond by the due date. If you accept an offer and later change your mind you should let the school know immediately in writing, so that the next eligible applicant can be offered the place.

If you are appealing on other grounds, you should include evidence to support your appeal.

Enquiries

Enquiries can be directed to the Head Teacher TFP Bossley Park High School at the email address or numbers shown at the beginning of this document.

The BPHS Gifted and Talented Football Program is dedicated to providing a learning environment to maximise the football education of junior and youth players in order to assist them in attaining their goals of reaching an elite level within a variety of football career paths.

The course is designed to educate and challenge student athletes in all aspects involved within the world of football. A specific focus is on the technical and tactical components of the game with sessions designed to create a competitive, as opposed to competition, environment. Other areas covered include refereeing, coaching, media, sport-science and event management.

Bossley Park High School has employed a full-time football coach to support the Talented Football Program who works with highly qualified and accredited teaching staff.

The practical program is based around exercises instead of drills. These allow the players to develop the process of performing technique whilst making decisions. Thus the main aim is at increasing the players' speed of thought by developing their technical ability.

In addition to the educational portfolio review, students will undertake a minimum of two trial sessions.

During the two trial sessions student athletes will partake in small-sided games. From this they will be assessed on the following:

- technical ability
- tactical understanding
- speed of thought, especially with regards to transition speed
- self-discipline and leadership qualities

Student athletes will then have their academic reports scrutinised for ability to learn, motivation to work towards objectives and behaviour in the learning environment.

Although academic performance is not critical, positive attitude towards learning in all curriculum areas is expected. Student athletes will be selected based on their performance in each of the three selection stages.

Clothing

Students need to wear appropriate sporting attire including boots and shin-pads as well as bring their own drink bottle.

Photographs

One (1) passport size photograph will be required on the day of the trial. Each photograph should have the name of the student clearly printed on the back. The photograph will help the trial panel identify each student. Photographs are not able to be returned.
